

# QUICK GUIDE

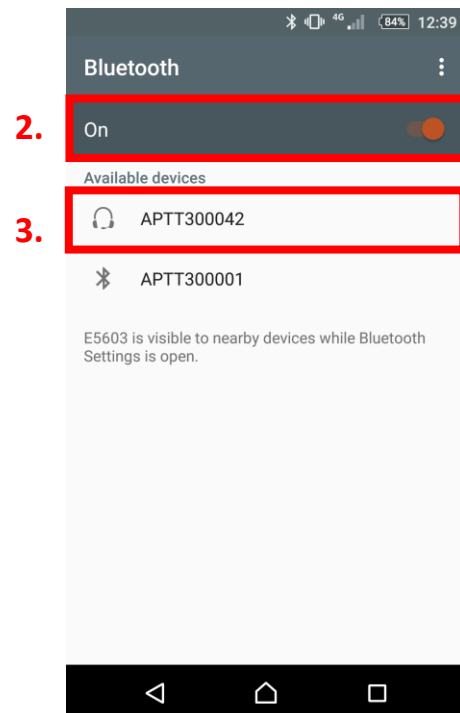

## Connecting your PTT Voice Responder to Nova Talk (Android) (EN)

# A

## Pairing your PTT Voice Responder with your smartphone via Bluetooth

1. Turn on your PTT Voice Responder by holding down the Power button for more than 3 seconds. After it is on, a blinking green light will indicate that the device is ready for pairing.
2. Turn on your smartphone's Bluetooth by going to: Settings → Bluetooth → Turn on.
3. Pair your PTT Voice Responder to your smartphone by selecting it from the 'Available devices' list. To know which device to select from the list, check the unique friendly name on the back of your Voice Responder. Once it has successfully paired, a blue light will begin blinking on your device.

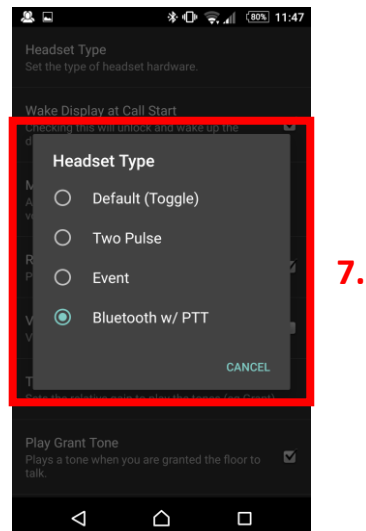

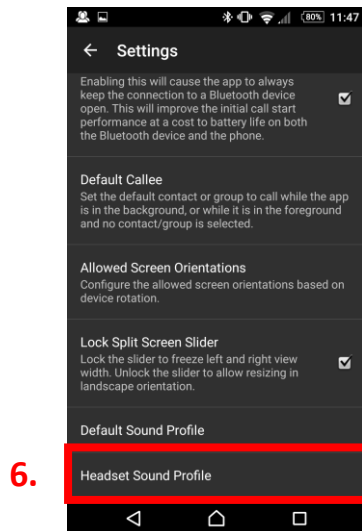

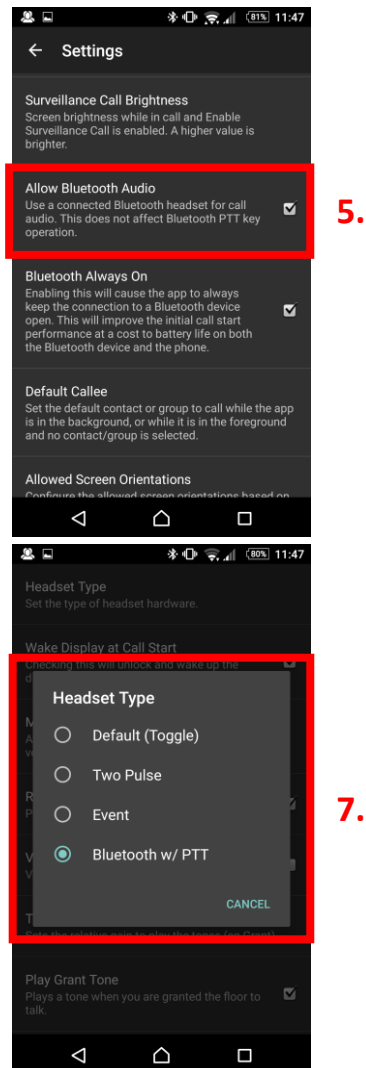

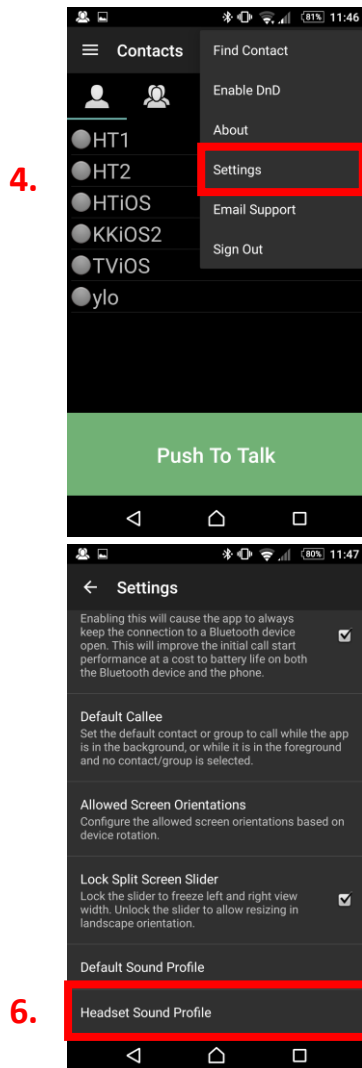

**NOTE:** The Voice Responder can only be paired with one device at a time. If you want to pair it to another device you need to perform an **Unpairing/ Software reset** by pressing and holding both soft buttons and both PTT buttons simultaneously, until the LED blinks once in yellow.

# B

## Enabling your PTT Voice Responder within Nova Talk

4. In the Nova Talk application, select the three vertical dots displayed on the top right corner, and from the list select 'Settings'.
5. Near the bottom of the list enable/tick 'Allow Bluetooth Audio'.
6. Then select 'Headset Sound Profile'.
7. Select 'Headset Type' and from the list 'Bluetooth w/PTT'.

For more information on how to use the Nova Talk application please visit their website [novatekint.com/pushtotalk.html](http://novatekint.com/pushtotalk.html)
